Alphabetical List of Presenters/Authors  81
Dear Participants!

Tervetuloa – Välkommen – Welcome
to space is luxury – the 24th AESOP Annual Conference

In 2010, the world is clearly one that can be called ‘urban’. In relative terms, more than half of the world’s population dwells in urban settings – about one billion under ‘slum conditions’.

Having quality space available equals commanding a ‘luxury’!

Planning and urban design are key factors in shaping and managing space and generate the wished for quality spaces. The concept of space and concomitantly that of spatial quality includes different meanings and dimensions. Space is physical, including architecture and urban form. Space is also socially constructed through various forms of human interventions. Space is contested and a reason for serious conflicts. Space is presented and space represents. For planning, the management of the competing uses for space requires complex interventions. The making of better places that are valued and have identity is an enduring ambition of planning. And, returning to the start of this brief reflection, the major challenge of spatial planning is to find solutions for a more sustainable urban millennium. Space is expensive and exhaustive, a luxury we cannot afford any longer, if it means excessive use of space in terms of energy inefficiency and traffic pollution.

The Centre for Urban and Regional Studies at Aalto University welcomes 700 planning scholars and professionals from all over the world to Finland and to discuss the manifold issues of space is luxury – and to explore the multitude of related planning issues.

Mervi Ilmonen & Peter Ache
Local Organising Committee

Welcome Note by AESOP

Dear Participants,

On behalf of AESOP, it is my honor to welcome all of you to our 24th Annual Conference. We could not wish for a better place than the fascinating southern coast of Finland to discuss the pros and cons of the conference theme space is luxury.

Finland provides a good case in point, having plenty of space but also knowing perfectly well how to use this
as a scarce source in environmental friendly and highly efficient ways. It reminds us to our central mission as planners to sustain the quality of the environment as a crucial parameter in a time of economic reconstruction.

At the time of writing, the figures of registration have touched already the amount of six hundred participants with a matching large number of papers and presentations, promising a very lively meeting and a lot of scientific exchange.

I would like to thank all of the Local Organising Committee and the Centre for Urban and Regional Studies for the management of this outstanding event. The very attractive venue of Dipoli provides a stimulating space for four intensive working days – but also to experience the spirit of the AESOP community. All signs are set to ‘green’ for a successful meeting.

I wish you a very productive conference!

Willem Salet
President of AESOP

Welcome Note by Aalto University

Dear delegates of the AESOP 2010 conference,

It is a great honour for me to welcome you to the 24th Annual Conference of the Association of European Schools of Planning to Otaniemi. I am very pleased that this major international and multidisciplinary event with almost 700 delegates from Europe and all over the world takes place in Aalto University.

Aalto University, in the form of Helsinki University of Technology, has been an active member in AESOP almost since its foundation. This relation will undoubtedly continue in the future, as Aalto shares many of the aims that AESOP has. Also Aalto strives at changing the world through interdisciplinary research and discourses across traditional boundaries. One of our focus areas in research is the human centred living environment, which is in the core of planning research as well.

We know AESOP as a highly esteemed and well known forum in planning, promoting the development of planning through mutual dialogue and communication. AESOP’s engagement is about a better spatial future. In my opinion, the theme of the 2010 Conference, space is luxury, challenges and enables particularly well debates and critical reflections concerning future developments of planning.

I thank the local organising committee at YTK and all Aalto personnel who have worked hard already for two years to make this event possible and wish you all an energizing conference and fruitful encounters with Finnish planning practice!

Tuula Teeri
President of Aalto University

Key Note Speakers

**Sharon Zukin**

Sharon Zukin is Professor of Sociology at Brooklyn College and the Graduate Center, City University of New York. She writes about culture and real estate in New York, and has also examined consumer society and culture, the new economic order in the United States and France, and socialism in former Yugoslavia. Her books *Loft Living*, *The Cultures of Cities*, and *Naked City*, trace the recent reshaping of the city through deindustrialization, gentrification, and immigration and the rise of the symbolic economy based on cultural production and consumption. Her book *Landscapes of Power* won the C. Wright Mills Award, and in 2007 she received the Robert and Helen Lynd Award for career achievement from the community and urban sociology section of the American Sociological Association. Her latest book is *Naked City: The Death and Life of Authentic Urban Places* (Oxford University Press, 2010).

**Kimmo Lapintie**

Kimmo Lapintie is Professor of Urban and Regional Planning at the Department of Architecture, Aalto University School of Science and Technology. He graduated in Philosophy from the University of Turku (1985) and in Architecture from Tampere University of Technology (1989), where he also made his PhD (1993). He has worked as research director, municipal planner, consultant and advisor in administrative programmes in Finland. He has also worked in a number of European Union projects and COST Actions. He has published on aesthetics of architecture, ecological urban planning, communication and argumentation in planning, and the professional role of architects and planners in the contemporary situation. Recently he has been working on a theory of space combining key modal notions in philosophy such as knowledge, perception and normativity to traditional conceptualizations of urban space.

**Jüri Soolep**

Jüri Soolep is Professor of Architecture and Urban Design and Dean of the Faculty of Architecture at the Estonian Academy of Arts. He is also the vice-rector of Nordic Architecture Academy. His current research focuses on space and time modes in architectural phenomena. Recent publications include: *Remarks for diagnosis: Imagosphere Come* (2009, Estonian Architectural Review). *Architecture – Being Given.*

Stephen Graham

Stephen Graham is Professor of Cities and Society at the Global Urban Research Unit in Newcastle University’s School of Architecture, Planning and Landscape. His research addresses two sets of related intersections: those between urban places, mobilities, technology, politics and urban planning on the one hand, and those between cities, militarization, surveillance, security and war on the other. Stephen Graham has authored and co-authored a wide range of academic articles as well as a variety of influential books. These include Telecommunications and the City (1996, Routledge), Splintering Urbanism (2001, Routledge) (both with Simon Marvin), The Cybercities Reader (Routledge) and Cities, War and Terrorism (Blackwell) (both 2004). His most recent book, Disrupted Cities: When Infrastructures Fail (Routledge), was published in December 2009. His next, Cities Under Siege: The New Military Urbanism (Verso), will be published in March, 2010 (US) and April, 2010 (UK/Europe).

Matti Pursula

Matti Pursula Professor, Lic. Sc. (Tech), D. Sc. (Tech) h.c., is the Executive Dean of Aalto University, School of Science and Technology. He was Rector of Helsinki University of Technology (TKK) in 2003–2009 and before that among other things leading consultant at Viatek Oy, Associate Professor and full Professor in Transportation Engineering and Vice Rector at TKK. Pursula is member of the Finnish Academy of Technology and Chair from 2004–2008. He has acted as visiting professor in the U.S.A. (University of Delaware) and Japan (Osaka City University). He has and has had several positions of trust in national and international cooperation between universities as well as in foundations and companies related to technological research and innovation activities. His scientific interests include transportation theory and simulation of traffic flow, intelligent transportation systems, and travel demanding modeling. He has published over sixty articles in international publications.

Track 8 has two parallel sessions organised in the Cone Lobby.
Instructions for Track Co-Chairs and Speakers

All sessions and rooms are attended by a volunteer who can assist you further. In case of technical problems, you can also contact the Conference Main Desk.

Presentations

Presentations should be uploaded at latest during the breaks before your session or during the day before your presentation. Volunteers in session rooms will assist you. Each file should be named by the track number, abstract registration number (paper ID), and the family name of the presenter (e.g. T05-XXX-Smith.ppt).

All computers in the rooms are equipped with Microsoft operating systems. Please consider this when choosing your presentation format.

Session Management

Track Co-Chairs agree with you in advance the specific time available for presentation and discussion. Track Co-Chairs and the moderators are in charge of the time keeping. A Yellow Card indicates that you have three minutes to conclude. A Red Card indicates to you that the time is over.

In principle

Anchor Papers – have 20 minutes for presentation and 10 minutes for discussion.
Standard Papers – have 15 minutes for presentation and 5 minutes for discussion.
Please be a disciplined presenter!

Paper

Please bring 25 copies of your paper to the session. No copying is done by the organisers.

Selected proceedings

Selected proceedings will also be made available to participants in digital format. Please indicate any publication reservation applying to your paper.

*Civil Society and Civic Engagement in Urban Development: Critical Issues and Emergent Policy Discourses*

---

**Friday 9th**

**09:00-10:30**

**Theme:** Space, scale and value  
**Moderator:** Kimmo Lapintie  
**Papers:**  
#577: Pizzo, Barbara  
*Space, Time, and Planning*  
#682: Verma, Niraj & Raja, Samina  
*Land as Luxury in Urban Development*  
#372: Schreurs, Jan & Moulaert, Frank  
*The Social Construction of Spatial Quality: from Theoretical Parallelism to Transdisciplinary Theory Building*  
#693: Gualini, Enrico  
*Critical Socio-Spatial Research and Planning Theory: Common Grounds, Common Concerns? Towards an Evolutionary Strategy of Inquiry*  
#51: Alexander, Ernest  
*Institutional Design for Value-Capture*

**11:00-12:30**

**Theme:** Place and region  
**Moderator:** Cathy Wilkinson  
**Discussant:**  
#244: Allin, Simone  
*Trapped Between Space and Time: Contemporary and Future Challenges to Land Use Planning in Germany*  
#729: Demaziere, Christophe  
*City-Regions and Strategic Spatial Planning: the French Case*  
#110: Jabareen, Yosef  
*Theorizing Planning for Climate Change: Critical Reading for New York City’S Recent Plan – Planyc 2030*  
#580: Håkansson, Maria  
*A Story of a Square – Local Identity and Creation of Meaning in Planning Processes*

---

**Saturday 10th**

**09:00-10:30**

**Theme:** Knowledge and expertise  
**Moderator:** Stefanie Dühr  
**Papers:**  
#585: Jessen, Johann  
*Learning Practice – Professional Experience and Planning Theory*  
#573: Buurmans-Niemi, Karen Auguste  
*Perception and Use of Urban Structure: The Frame – Pattern – Circuit (Fpc) Model*

**11:00-12:30**

**Theme:** Making plans  
**Moderator:** Matthew Gebhardt  
**Papers:**  
#453: Brink, Margo Van Den & Roo, Gert De  
*Bridging the Technical and the Communicative Perspectives in Planning*  
#438: Pozoukidou, Georgia  
*Advancing the Role of Knowledge in Urban Planning*

**Papers**  
1. #171: Madureira, Ana Mafalda  
   Urban Design as Tool for Transformation of De-Industrialized Cities  
2. #435: Polko, Adam: Regeneration of Main Street in Post-Industrial City – Polish Experience  
3. #494: Savvides, Andreas L.: Regenerating the Core: Adaptive Reuse and Housing in the Historic City  
4. #:450: Serdoura, Francisco & Moreira, Graça: Creative Urban Regeneration in Lisbon  
5. #231: Aalto, Leena: Multisensory Environmental Experience

**11:00-12:30**  
**Theme:** Local interests and localised practices  
**Moderator:** Graham Squires  
**Papers**  
1. #148: Carpenter, Juliet: Regeneration and Social Enterprise: a Model for the Future?  
2. #621: Takahashi, Akira & Abe, Hirokazu  
   Harmonious Coexistence of Housings and Manufacturing in Industrial Area, Japan  
3. #107: Bailey, Nick  
   The New Localism: Evaluating the Importance of Neighbourhood Governance in Delivering Regeneration Strategies.  
4. #288: Larsen, Jacob Norvig: Local Firms, Place and Social Responsibility  
5. #586: Hendrixen, Peter: Institutional Change and Governance Dynamics in Local Strategic Partnerships

### Saturday 10th

**09:00-10:30**  
**Theme:** Housing markets, planning and regeneration  
**Moderator:** Eric Pollock  
**Papers**  
1. #392: Sinning, Prof. Dr. Heidi & Eizenhöfer, Rebecca & Ziervogel, Daniela  
   Demand-Orientation in Housing – Communicative Methods in Regeneration Policies  
2. #659: Baker, Mark William & Hincks, Stephen  
   Defining Sub-Regional Housing Market Areas in the English Regions: Methodological Approaches and Practical Implications  
3. #554: Hincks, Stephen  
   The Interaction of Housing and Labour Markets and the Implications for Spatial Planning in England  
4. #262: Ferrari, Edward Terence  
   Housing Search and Moving Intentions: Implications for Spatial Planning  
5. #752: Pollock, Eric  
   Accessibility in Society; an Annotated Bibliography for Dealing with Impairments and Disability

**11:00-12:30**  
**Theme:** Planning and regeneration in the face of conflicting needs  
**Moderator:** Nick Bailey  
**Papers**  
1. #739: Kuechel, Lisa  
   Urban Living in France Tendencies, Similarities and Differences – a French German Comparison  
2. #172: Pisman, Ann & Allaert, Georges & Lombaerde, Piet  
   Different Neighbourhoods but Also Different People?  
3. #119: Madeddu, Manuela  
   Tenure Neutral Development, Space Standards, and Economic Shocks  
4. #:294: Squires, Graham  
   Reinforcing the Problem: Poor Quality Physical Built Environments in Socio-Economically Disadvantaged Areas
### Thursday 8th

</table>
| **09:00-10:30** | Supporting decision making on infrastructure projects                  | Tapio Luttinen | #656: Nicolaisen, Morten Skou  
Uncertainties in Travel Demand Forecasting: Considerations for a Methodology of Appraisal  
#120: Curtis, Carey & Burke, Matthew & Scheurer, Jan  
The Dead End of Demand Modelling: Supplying a Futures-Based Public Transport Plan  
#520: Maloir, Catherine & Arts, Jos & Tillema, Taede  
Living near Roads: Exploring the Trade-Off Between Accessibility and Environmental Effects  
#628: Andersen, Jeppe Astrup  
Models, Manipulation and the Environment: Power and Filtering of Knowledge in the Decision-Making Process on the Third Limfjord Crossing  
#194: Beukers, Els & Te Brömmelstroet, Marco & Bertolini, Luca  
Social Cost-Benefit Analysis: Learning Tool Instead of Final Assessment |
| **11:00-12:30** | Institutional barriers and innovations in transport planning           | Joseph Arts   | #47: Curtis, Carey & Armstrong, Rachel  
The Capacity of State and Local Planning Authorities to Deliver Sustainable Transport: the Case of Metropolitan Perth.  
#83: Tan, Wendy & Bertolini, Luca  
Barriers to Transit Oriented Developments in the Netherlands: a Luxury Problem?  
#13: Krummheuer, Florian  
Chances and Risks by Disintegrating Light Railway Systems – a Planers Approach  
#639: Dai, Guowen  
Renaissance of the HSR Ages? Effectiveness of Spatial Policy Under HSR Network Based on Comparative Studies in China and Europe |
| **13:45-15:15 AESOP General Assembly** |                                                                      |                | **15:30-17:00**  
**Theme Integrating infrastructure and spatial planning**  
**Moderator Luca Bertolini**  
#168: Zanon, Bruno  
Challenges of Multilevel Territorial Governance: Infrastructure Networks Development and Regional Planning. Lessons from a Case Study in Northern Italy.  
#286: Webb, Brian  
Spatial Thinking Within Canadian Federalism: Creating the Asia-Pacific Gateway and Corridor  
#418: Heeres, Niels  
From Line Towards Area Oriented Approaches in Infrastructure Planning: a Historical, Comparative Analysis  
#222: Busscher, Tim & Tillema, Taede & Arts, Jos  
“Towards a Programmatic Approach in Dutch Infrastructure Planning? Lessons Learned from a Dutch Air Quality Programme” |
| **17:30-19:00** | Emerging mobility practices and conceptualizations                    | Luca Bertolini | #606: Moreira, Maria Da Graça Antunes & Serdoura, Francisco  
Planning Night Life in the City – a Transport Dilemma  
#141: Jaarsma, Rinus & Vries, Jasper R. De & Beunen, Raoul  
When Space Is Luxury: Planning for Competing Uses in a Recreation and Protected Area, the Meijendel Dunes, with a Long-Standing Visitor Monitoring Program |
### Friday 9th

| 09:00-10:30| Networks perspective                        | Thomas Fischer, Jari Niemelä       | #503: Seardo, Bianca: Environmental Quality in “Ordinary Territories”: the Ecological Network Model in Spatial Planning. A Balance After a Decade of Practice.  
#684: Murano, Chiara  
Integrating Strategic Environmental Assessment in River Basin Planning: Institutional Landings  
#213: Maricic, Tamaara  
Analysing Social Impacts of Mining Activities |

**17:30-19:00**

**Thematic Group:** Resilience and risk mitigation  
Chair: Murat Balamir
11:00-12:30
Theme  Marine and coastal areas
Moderator  Thomas Fischer, Jari Niemelä
Papers  
#99: Ritchie, Heather Jennice  Marine Spatial Planning: Is It Possible to Act in the “Sea Interest”?  
#143: Jay, Stephen  Space at Sea: Manoeuvring Towards a Relational Understanding  
#609: Kidd, Sue  The Purpose and Process of Marine Spatial Planning: Insights from Terrestrial Planning

Saturday 10th

09:00-10:30
Theme  Special session: Theoretical dimensions of urban resilience
Moderator  Thomas Fischer, Jari Niemelä
Papers  
#165: Van Der Knaap, Wim & Snep, Robbert  Multiple Land Use Planning and Urban Designs for Building Resilience in Metropolitan Landscapes  
#445: Tezer, Azime & Aksehirli, Ilke & Ozyetgin, Ayse  Integrating Resilience Theory with Ecosystem Services in the Case of Omerli Watershed: an Informally Developing Urban Biodiversity Hot-Spot of Istanbul  
#393: Eraydin, Ayda  “Resilience Perspective” for Urban Analysis and Planning  
#733: Tasan-Kok, Tuna & Stead, Dominic & Lu, Peiwen  Shifting from Sustainability to Resilience? Planning Strategies, Climate Change and Flood Risk in Rotterdam  
#357: Lu, Peiwen  Urban Resilience in Planning

11:00-12:30
Theme  Special session: Empirical analysis of urban resilience
Moderator  Thomas Fischer, Jari Niemelä
Papers  
#6: Morgado, Sofia & Costa, João Pedro & Dias, Luís  Assessing Urban Resilience in the Metropolitan Area of Lisbon. The Cases of Cacém and Alcântara  
#290: Cruz, Sara Santos & Vitor, Oliveira Araújo & Ana, Martins Jorge  Evaluating Urban Policies from a Resilient Perspective: the Case of Oporto  
#444: Dubois, Alexandre & Schmitt, Peter & Henriksson, Anu  Resilience and Polycentricity – the Case of the Stockholm Region  
#599: Salgueiro, Teresa Barata & Cachinho, Herculano  Retail Policy for Resilient Cities  
#532: Altay, Deniz  The Transformation of Urban Social Geography and Urban Resilience Under the Influence of Global Processes  
#581: Woltjer, Johan  Articulating Resilience in Flood Risk Management and Regional Planning
## TRACK 14: Participation and Governance

**Track Co-Chairs**
- Louis Albrechts
- Aija Staffans

### Thursday 8th

### Friday 9th

#### 09:00-10:30
**Theme**: The changing roles of private developers and property markets  
**Moderator**: Kauko Viitanen  
**Discussant**: Evelin Titz  
**Papers**
- #425: Pasmans, Bart & Van Der Krabben, Erwin & Helderman, Jan-Kees  
  Privatization Strategies and the Institutional Context  
- #58: Korthals Altes, Willem K. & Ploeger, Hendrik  
  Planning, Public Contracts and European Land Law  
- #283: Knappik, Magdalena & Renetzki, Peter  
  Decreasing Land Consumption by Using PPP in Land Use Management  
- #369: Ploegmakers, Huub  
  Institutions in the Dutch Industrial Land and Property Market  
- #719: Turk, Sevkiye Sence  
  TWO Options in Turkish Inner City Areas: Agreement or Expropriation

#### 11:00-12:30
**Theme**: Housing rights and social exclusion  
**Moderator**: Adri Van den Brink  
**Discussant**: Fatma Unsal  
**Papers**
- #421: Oren, Michelle L & Alterman, Rachelle  
  Housing in the Constitutional Context: Bridging Housing Studies and Housing Law  
- #509: Triantafillou, Charikleia & Apostolopoulou, Ioli & Christodoulou, Nektarios  
  Influence of Urban Regeneration Projects on Social and Functional Patterns and Proposals to Prevent Their Unequal Spatial Distribution  
- #538: Melot, Romain  
  The Price of Eviction: Disputed Compensations After Expropriation in French Civil Courts

### Saturday 10th

#### 09:00-10:30
**Theme**: Land policies and land values  
**Moderator**: Erwin v.d. Krabben  
**Discussant**: Erwin v.d. Krabben  
**Papers**
- #712: Havel, Barbara & Viitanen, Kauko  
  The Model of Property Rights Regime in Land Development  
- #688: Janssen-Jansen, Leonie  
  Changing Landscapes, Challenged Planners: An Analysis of Two Recent Dutch Regional Area Developments in Which an Airport Becomes a Park and a Polder Is Converted into a Lake  
- #389: Straalen, F.M. (Fennie) Van & Brink, A. (Adri) Van Den  
  An Assessment of Land Policy Strategies in Dutch Metropolitan Landscapes

#### 11:00-12:30
**Theme**: Implementation and diversions: planning or legal failure?  
**Moderator**: Glen Searle  
**Discussant**: Glen Searle  
**Papers**
- #447: Pais, Carina & Carvalho, Jorge  
  Implementation and Equity Guidelines in Portuguese Land Use Plans  
- #331: Unsal, Fatma & Firidin Ozgur, Ebru & Yesilirmak, Asuman  
  Planned “Disorder” in Istanbul  
- #536: Rosa, Elisabetta & Rosa, Elisabetta  
  Abusivism and Territorial Planning: an Ethical Approach  
- #716: Maasikamäe, Siim & Hass, Helena & Jürgenson, Evelin  
  Uncontrolled Real Estate Development: Empirical Study of Urban Sprawl in Estonia  
- #352: Hossain, Shahadat  
  Space in the Negotiation of Water Supply in Dhaka
<table>

Delivering an Age-Friendly Community in Taiwan – Developing a Physical Environment Assessment Indicator System |
| 13:45-15:15 | AESOP General Assembly |
| 15:30-17:00 | Theme: Public life in the multi-cultural city  
Moderator: Mark Oranje  
Discussant:  
#574: Rafferty, Gavan  
Reshaping Our Future, Reconciling Our Past: the Potential of Spatial Planning and Urban Governance in Transforming Contested Space  
#121: Mohammadzadeh, Mohsen  
Is Spatial Justice Possible in Planning Under the Hegemony of Globalization?  
#411: Pellas, Themistoklis  
Migration as a Radical Plateau for Planning |
| 17:30-19:00 | Thematic Group:  
Theme: French and British planning studies  
Chair: Philip Booth |
### Friday 9th

**09:00-10:30**

**Theme**: Decentralization and empowerment  
**Moderator**: Giulia Bonafede  
**Papers**

- #417: Todes, Alison Elaine & Williamson, Amanda  
  Decentralisation, Planning and Women’S Rights: International Debates, South African Reflections
- #176: Darmoyono, Laksni Tungga Dewi Jaya Wisnu Wardani & Woltjer, Johan  
  A Networking Experiment in a Decentralized Planning Regime, Urban Governance and Infrastructure Development in Indonesia
- #582: Senol, Fatma -  
  Elected Neighborhood Officers (Muhtars) in Turkey: How Did Gender Differences and the Neighborhood Scale Influence Their Candidacy and Office Work?

**11:00-12:30**

**Theme**: Interventions  
**Moderator**: Francesco Lo Piccolo  
**Papers**

- #408: Oranje, Mark Christiaan & Van Huyssteen, Elsona  
  Space(S) for Empowerment: Reflections on the Preparation of ‘Area-Based Land Reform Plans’ in Metropolitan South Africa as Tools for ‘Inclusionary, Sustainable and Equitable Pro-Poor Growth’
- #492: Briata, Paola  
  Living or Leaving? Regeneration Policies in Multi-Ethnic Contexts in North Italy
- #173: De Smet, Aurelie & Doevedans, Kees  
  Urban Voids as Space Provision for a Diverse Society, Intermittent City Brussels
- #499: Tschirk, Werner & Scheuvens, Rudolf & Krassnitzer, Philip  
  Strategic Planning for Neighbourhood Development – Learning from Vienna

**AESOP 2010**
Friday 9th

09:00-10:30
Theme: Positioning and patterns
Moderator: Elisabete A. Silva, Chris Webster
Papers:
- #462: Park, Joon
  Commuting Pattern and Regional Division of Housing Market: the Case of Seoul, London, Los Angeles
- #209: Harder, Henrik & Bro, Peter & Knudsen, Anne-Marie Sanvig
  On the GPS Track of 169 Young Danes in the Urban Landscape: the Aalborg Case – Gps-Tracking of Young Adults in the Central City
- #698: Kuo, Hsing-Fu & Tsou, Ko-Wan
  The Dynamic Effects Assessment of the Growth Boundary Strategy on Future Urban Land Development Patterns

11:00-12:30
No session

Saturday 10th

No sessions

Room 13

SEPARATE SPECIAL SESSION 2:
Planning in Uncertainty for the Planning Theory

Session Co-Chair: Jean Hillier

Thursday 8th

17:30-19:00
Moderator: Jean Hillier
Papers:
- #36: Hillier, Jean
  Multiplanar Planning as Strategic Navigation
- #46: Wilkinson, Cathy
  Strategic Navigation
- #44: Nyseth, Torill
  The Tromsø Experiment: Temporary Resting as Planning Strategy
- #45: Balducci, Alessandro
  Planning as Discovery
- #37: Boelens, Luuk
  Mainport Rotterdam – Going Beyond the Next Planning Disaster
All Roundtables will be organized in the Book Exhibition Area on the upper floor of the Dipoli building. Just check day & time to identify the Roundtable you are interested in. Original texts have been edited for printing purposes.

How to write a good paper and publication process
Moderator: Ceren Sezer, Department of Urbanism, TU Delft (NL)
THU, July 8th, 1100–1230
Cecilia Wong, (UK)
David Shaw, (UK)

This roundtable is organized by Young Academics Network. Writing a good journal paper and a good research proposal is an essential part of the academic career. Both forms of the academic writing follow some rules, which make it easier for authors to communicate through her/his research, and for readers to follow the ideas presented with a certain logic. In this session, we aim to provide basic guidelines to the young academics to understand the steps of these two forms of writing.

The first session, “Writing a good journal paper” will be presented by Prof. Cecilia Wong. Writing an academic paper is a difficult, and trying task for many young academics. In her presentation, Wong will explain us the basic steps of academic writing, including issues of getting started, choosing a topic, organization of the paper, citations and references. The first part of her presentation will be followed by a brief explanation of publishing process of a paper in an academic journal.

Prof. David Shaw will present the second session of roundtable discussion, “Writing a good research proposal”. The quality of a research proposal depends not only on the quality of the project, but also on the quality of proposal writing. David Shaw will explain us the essential points of writing a research proposal: How can we write a rationale – convincing support of need for the research? How can we define our research questions? How can we explain detailed research steps very clearly? What are the basic requirements to provide a related literature? These are some of the issues that he will address in his presentation. In the final part, David Shaw will give us some examples from different research proposals which address at different types of research bids.

We planned this event in an informal atmosphere. So please bring your questions with you and feel free to address them to our guest speakers.

Companion to Urban Design: Roots, Influences, and Trends
Moderators: Tribid Banerjee, School of Policy, Planning and Development (USA);
Anastasia Loukaitou-Sideris, Urban Planning, UCLA (USA)
FRI July 9th, 0900–1030
Participants: Matthew Carmona (UK), Ali Madanipour (UK), Danilo Palazzo (IT), Rafael Pizarro (DE), Niraj Verma (USA)
The roundtable is based on a forthcoming book Companion to Urban Design, edited by the moderators. The Companion is a collection of 52 chapters. Participating authors will briefly introduce their contributions to the Companion. The premise of the Companion is that the field of urban design has emerged as an important area of intellectual pursuit, involving theory, research, and pedagogy, all intended to inform and improve practice. In the early stages of its modern professional identity, the field of urban design was defined by the interstices of the more established fields of architecture, landscape architecture, and urban planning with each claiming some proprietary rights.

The practice of urban design, while still involving participation from architecture, landscape architecture, and planning, has long eschewed its interstitial legitimacy. It has forged a distinctive identity with applications at many different scales -- ranging from the block or street scale to the scale of metropolitan and regional landscapes, with such intermediate scales of applications as planned new communities, or conservation and design of urban neighborhoods. Because of its multiple scales of application, the practice of urban design now interfaces, if not engages, many aspects of contemporary public policy – multiculturalism, healthy cities, environmental justice, economic development, climate change, energy conservation, protection of natural environments, sustainable development, community livability, and the like. For students of the built environment and urban design, the field now comprises a core body of knowledge that includes a rich history of ideas, paradigms, principles, tools, research, and applications involving aspirations of a good city form, and the consequences of the built environment on human activity. In its remarkable evolution, the field has become increasingly eclectic and interdisciplinary, enriched by influences from the humanities, and social and natural sciences.

Courses on urban design are increasingly a requirement not just for graduate or undergraduate professional studies in architecture, landscape architecture, and urban planning, but also undergraduate studies in urban studies, urban affairs, geography, and the like. General interest in these areas as courses of post-secondary studies is also growing as the world population and developing economies are undergoing an unprecedented urban transformation. The growing awareness of the importance of the quality of life and livability of the built environment extend much beyond the traditional design disciplines.

Space is luxury meets better cities better life
Moderator: Peter Ache, Centre for Urban and Regional Studies, School of Science and Technology, Aalto University, (FI)
FRI July 9th 1100-1230h
Participants: Wenhui Shan (PRC), Denise Pessoa (BR), Uptal Sharma (IND), David Amborski (CAN), Paul Maginn (AUS), Jüri Soolep (EE)

This Roundtable intends to explore current issues of planning using the theme of the World Exhibition in Shanghai, better cities – better life, and the umbrella theme of the 24th AESOP conference, space is luxury.

Questions for discussions are
– what essentially determines better cities and a better life?
from which general perspectives can we discuss the luxury of space?
what are the current perspectives of the general political or societal debate about urban spaces?
in consequence, what should be future lines of our professional and individual perspective?
Participants will give short statements regarding their continental views, before an open discussion will explore up-coming issues.

Fair Share Cities
Organisers: Inés Sánchez de Madariaga, Universidad Politecnica de Madrid (ES)
Marion Roberts, University of Westminster (UK)
SAT, July 10th 0900 –1030 & 1100 –1230

Roundtable 1

Mainstreaming gender-sensitive concepts and a review of the structural frameworks for urban planning
Panel discussants: Barbara Zibell (DE), Lidewij Tummers (NL), Heidrun Wankiewicz (DE)

The inspiration for this roundtable discussion comes from an edited book which the participants are preparing on the topic of a gender-sensitive approach to urban planning and design. It is now ten years since the Treaty of Amsterdam (1999) ensured that gender mainstreaming achieved legislative recognition. It is therefore timely to consider what has been achieved, what has been misconceived or resisted and how the future might be influenced. In the context of the EU, where urban development has ensured a contest for land and resources, the relations between the genders are particularly pertinent to the conference theme of 'space is a luxury'. Previous academic work has highlighted issues such as the exclusion of women from planning processes and the structural inequalities between women and men that are inscribed through the built environment at different spatial scales that work to reduce women’s life choices and life chances. In this first of two linked roundtables the panel members will critically examine key concepts associated with a gender sensitive approach and the structures for planning that underpin its delivery. Following a brief five minute introduction from each of the chairs and panel on their individual chapters, the discussion will draw together themes and tease out issues. The topics for the discussion of concepts include a gender sensitive approach to social justice as embedded in the three-pronged model of sustainability, the lack of consideration of social care as carried out (mainly) by women in approaches to mobility and to changes in attitudes and practices with regard to night-time activities. This discussion illustrates the manner in which women's voices are still not heard despite overt calls to equality and empowerment. This leads on to a review of structures and frameworks, where issues of governance, participation and the political structure of decision making come to the fore. Attention will be paid to the extent to which new structures of governance represent an improvement in planning to ensure gender sensitive sustainable development, or the reverse. Progress can be reviewed in different member states from an account of
institutional resistance to the explicit inclusion of gender mainstreaming into national planning policy in Spain, to discussion of its inclusion in the rubric of sustainability in Germany, to a review of the history of gender sensitive planning instruments in the Netherlands. In short the discussion will revolve around the effectiveness of gender mainstreaming as a concept to be embedded in institutional structures. There are many theoretical questions that underpin the discussion but perhaps the most pertinent concern is the extent to which gender equality and gender mainstreaming can be mobilised within existing power relations to challenge the status quo.

Roundtable 2

Learning from gender-sensitive experiences in urban planning, urban design and architecture.
Panel discussants: Doris Damyanovic (AT), Liisa Horelli (FI), Sirkku Wallin (FI), Eeva Berglund (UK)

In this second of two linked roundtables the panel members provide insight through a valuable series of case studies. Time does not permit detailed exploration of each. Rather each participant will be invited to provide a five-minute 'snapshot' of their particular experience and the learning points that may be derived from it. These cover a wide variety of policies and practices. In the case of Vienna, gender mainstreaming has been introduced to the heart of the city's planning processes and, it will be argued, has assisted in its designation as a city with a high quality of life where each gender can enjoy the 'luxury of space' in a different way. The small town of Villach, also in Austria, provides the example of an experiment in mainstreaming on a smaller scale, at a community level. Women have also been able to gain greater access into planning at the local scale, through new technologies and approaches to government. Helsinki itself provides the example of community informatics, where two women's networks are supported. In England, the Women's Design Service has provided architectural and planning services to groups of women who are often excluded from mainstream planning process, such as the elderly and recent immigrants. Gender-sensitive approaches have been taken up by architects and urban designers, in the planning and design of new urban spaces, housing projects and small-scale regeneration proposals. Discussion of these different examples will identify where advances have been made and experience could be generalised. The resistances and difficulties that were experienced in the case study examples provide learning points for structures, institutions and frameworks. The chairs will endeavour to make connections to the more theoretical discussion in the linked first roundtable in order to deepen our collective knowledge base and critical appraisal of gender mainstreaming as a concept and set of practices that ensure fairness in each gender's experience of space and place.
Special Sessions

Original texts have been edited for printing purposes.

Property Rights and Land Use Regulations around the Globe
Organiser: Rachelle Alterman, Technion (IL)
THU July 8th 1530–1700 / Hall 4
Participants: Please consult track program – see Track 15: PLPR

No land-use law in the world can evade the need to address the relationship between land use regulation and property values. Especially contentious are situations where planning decisions lead to a reduction in property values without actually taking the title to the land and – that thus without expropriation-based compensation. This is called by Americans “regulatory takings” and by the British “worsenment”. The issue is to what extent should there be a right to claim compensation from government.

A recently published book (Alterman 2010) presents path-breaking research to fill in some of this void. It provides systematic comparative knowledge on the laws and practices of 13 countries located on four continents. The findings show a surprising variety of approaches to “regulatory takings”. No county’s laws and policies are similar to others’. Many of the conclusions are counter-intuitive, negating many prior images we hold about presumed property rights in some countries.

In the roundtable, scholars from the participating countries will report on the laws and policies of their respective countries. Rachelle Alterman will open with a report on her comparative analysis, some of which systematic comparative research can indeed be valuable for cross-learning about alternative legal norms and their policy implications.

Gender issues in planning education
Organiser: Marilyn Higgins, School of the Built Environment (UK)
FRI, July 9th, 0900 – 1030 / Room 25
Participants: Please consult track program – see Track 3: PE

Gender is increasingly considered a relevant category to describe and explain spatial development patterns as well as individual spatial behaviour. Research findings show that demographic change, mobility and migration are as much linked to gender roles and stereotypes as are the use and appropriation of public and private spaces. Gender identities and power relations are found to be shaped and reproduced through institutional and individual action and intertwined – amongst others – with race, class and sexual orientation. One political impact of both research and NGO pressure has been the world-wide adoption of the gender mainstreaming principle, which has since been integrated into funding schemes, legislation and political procedures.

Research findings and political obligations indicate that gender issues are relevant for planners. In spite of this, however, gender issues are still not well represented in planning education curricula. The roundtable discusses why this is the case, where the holdups are (institutional, practical, and even personal resistances) and how gender issues can
be better mainstreamed and fully integrated into undergraduate and graduate planning programs. Which role do inter-generational differences play? After 5-10 minutes inputs by each participant, the floor will be open for discussion.

**The EU Strategy for the Baltic Sea Region**

Organisers: Peter Schmitt and Ole Damsgaard, Nordregio, Nordic Centre for Spatial Development, Stockholm (SE)

FRI July 9th, 0900–1030 & 1100–1230 / Room 23

Participants: Please consult track program – see Track 5: ETCP

With the recent adoption of a macro-regional strategy for the Baltic Sea Region (BSR), in 2009, it appears that the European Commission has invented a new policy approach for coordinating a range of different territorial policies (e.g. environmental protection, maritime safety, economic development) that are targeted on a specific zone of intense territorial cooperation. A considerable part of the EU has been singled out in order to gain a stronger commitment from the relevant local, regional and national stakeholders to use the available financial resources more efficiently. In this respect, the Baltic Sea Region serves as a macro-regional test-bed. This concept may in turn be applied to other macro-regions in the future (cf. the ongoing discussions on a similar strategy for the Danube macro-region).

Such a comprehensive inter-sectoral strategy is naturally contested in particular since it is coupled to other polices, programmes and action plans in such larger transnational areas as the BSR. This sheds light on the following questions:

- Why and how has the EU Commission launched this strategy? What view do other National states and NGOs in the BSR have?
- How is the EU Strategy for the Baltic Sea Region related to the objective of territorial cohesion, as adopted in the Lisbon Treaty?
- What is the relevance of the co-existence of other transnational policy programmes with a similar focus (e.g. INTERREG)?
- What kinds of tensions and challenges, in view of coordination and implementation, might arise within such a complex macro-regional governance system?

In this context, one should not forget that the BSR can be seen as one of the forerunners of transnational cooperation in Europe. A well-known example is the VASAB cooperation, established already in 1992, an inter-governmental network of 11 countries (including Russia and Belarus) advancing cooperation in spatial planning and development in the BSR. Just recently, in late 2009, the network launched a strategic paper, a 'Long Term Perspective for the BSR,' focusing on urban networking, urban-rural relations, accessibility and management of the Baltic Sea; it lists actions (such as the EU BSR Strategy does) so as to stimulate territorial development potentials and to promote territorial cohesion. Can that strategic paper be seen as a complementary 'place-based' guideline, or is it instead a controversial attempt to promote territorial cohesion by the national states around the Baltic Sea?
Public Spaces and Urban Cultures
Organiser: Sabine Knierbein, Interdisciplinary Centre for Urban Culture and Public Space, TU Wien (AT)
FRI, July 9th, 1100–1230 / Hall 4a
Participants: Please consult the Track Program – see Track 9: CHP

Public spaces as arenas of social interaction are one of the vital elements of city’s public life as they play a significant role to bring together different groups of people from different cultural backgrounds regardless to aspects of class, ethnic origin, gender and age. Public spaces, however, are under the pressure of globalization, privatization at the macrolevel and of city image and marketing strategies as well as other private sector inspired regeneration strategies at the microlevel. During the phase of postfordist transitions, especially cultural approaches within the planning community have characterized debates on how to deal with this manifest pressures on public spaces.

With rising rhythms of development, the degree of conflicts and fragmentation in public spaces – taken from a descriptive perspective – is changing. From a normative perspective, the role of public spaces as places for integration and democracy is, therefore, challenged and contested. The special session will be organized by the new AESOP Thematic Group on Public Spaces and Urban Cultures aiming at an improved understanding of the relational nature of public spaces by using different concepts of urban culture as analytical perspectives. Thereby, debates shall be stimulated that relate to three main strands of investigation: Issues of artistic and intellectual practices and urban planning; emerging urban cultures and socio-spatial practices in public spaces and postdisciplinary academic education regarding urban cultures and public spaces.

Digital Tools in Participatory Planning
Organiser: Liisa Horelli; Centre for Urban and Regional Studies, School of Science and Technology, Aalto University (FI)
FRI July 9th, 1100–1230 / Takka
Participants: Please consult track program – see Track 14: PG

The information and communication technology (ICT) is part of everyday life, the experience and interaction in urban space. There is a growing interest in the use and development of ICTs and digital tools for participatory urban planning. In research, different disciplines and fields have so far addressed the topic from their own perspectives and a truly inter-disciplinary inquiry on the subject lies still ahead.

This session aims to address ICT-assisted participatory urban planning from two perspectives, from the urban planning approach and the technology design and development approach. How can these two approaches be brought together within an inter-disciplinary or even a transdisciplinary framework? What are the main questions that each approach strives to answer? As a conclusion, the session will refine the inter-disciplinary framework by finding its position within fields, such as eParticipation, Community Informatics, and Participatory Design.

The session starts by asking the following question:
• What is it that we are talking about when we put cities, urban planning, digital tools and citizen participation together?
Is it e-planning?
Is it ICT-mediated participatory planning?
Is it urban informatics?

The session presents an overview of cases that deal with ICT and participatory urban planning. These are presented by the session organisers and a few selected participants. The cases cover examples of participatory GIS and public web portals designed for master plan processes, specialized tools and mash-ups for public participation in local development projects which use multi-channel technology of GPS, web 2.0 and urban screens.

A set of relevant topics for discussion are gathered from the cases and addressed through open discussion moderated by session leaders. The topics might include:
- the characteristics of participation with the used technologies
- the analysis of the gathered data and its use in the planning process
- the challenges and processes of ICT-assisted urban planning

**Sustainable urban land-use policies for resilient cities**

Organisers: Ayda Eraydin (Middle East Technical University, Department of City and Regional Planning, TR), Dominic Stead (Delft University of Technology, OTB Research Institute for Housing, Urban and Mobility Studies, NL), Tuna Tasan-Kok (Delft University of Technology, OTB Research Institute for Housing, Urban and Mobility Studies, NL)

SAT July 10th, 0900–1030

Participants: Please consult Track program – see Track 13: RMEP

SAT July 10th, 1100–1230

Participants: Please consult Track program – see Track 13: RMEP

European urban landscape is changing profoundly under different dynamics. Creation of an integrated-land use policy and to increase the ability of urban systems to absorb changes, reorganize and develop them in a sustainable way is increasingly important. The economic conditions as well as the changing ecological pressures necessitate effective land use policy instruments both to confront the problems at hand and assessing conditions of uncertainty. The changes that has been imposed by the global economic relations in the last two decades enforced new policies on urban development and urban form, which are not compatible with the principles of resilience. Current policy instruments, which are shaped under the entrepreneurial mode of governance pay limited attention to the sustainable land use and social and ecological resilience of cities.

Within this framework the aim of this special session is to explore sustainable land use policies, plans and instruments with reference to the question of 'resilience both' theoretically and practically and to put together papers that aim to address following questions:
- What is the importance of 'resilience thinking' for urban analysis and planning?
- Does urban resilience represent a new paradigm for planning or is it merely the 21st century incarnation of sustainable development? Does it represent a new rationale for planning policy?
• Which land use policies, projects/plans/instruments are important for creating resilient cities?
• Which instruments are important for enhancing the adaptive capacities of cities?
• What are the main characteristics of the changing urban built environment and their relations to urban resilience?

Global winners and local losers?
Regeneration Strategies in Shrinking Cities
Organisers: Helen Mulligan, Cambridge Architectural Research Ltd (UK), Jasmin Aber (FR)
SAT 0900–1030 & 1100–1230 Auditorium
Participants: Please consult Track program – see Track 6: GCLR

In current planning debates the term ‘shrinking city’ usually describes a densely populated urban area that has on the one hand faced a population loss in large parts and is on the other hand undergoing economic transformations with some symptoms of a structural crisis. According to Oswalt (2006) more than a quarter of the world’s metropolises shrank in the 1990s and this will continually increase, notwithstanding the ongoing urbanization processes. However, shrinking cities do not occur everywhere. They pool in certain areas, like the US-American rustbelt, Japan and in particular in Europe.

Most European countries see an increasingly ageing population and internal migrations from backward areas to more competitive locations. Therefore, dealing with the results of demographic contraction processes – often linked with economic and physical contraction processes – and designing the restructuring of shrinking urban regions present some of the most challenging tasks for Europe’s cities in the near future. On a pan-European scale the still dominant one-sided growth strategy is risky. Considering the low birth rates population decrease in many cities is inevitable in the coming decades. In general, a growth-oriented strategy intensifies the negative consequences of shrinkage because it goes along with a single-edge orientation toward massive external investment, without which the break of the economic trend cannot be realized.

The shrinking cities phenomenon represents a challenge to change and review the principles upon which urban policy and planning has been traditionally based. Accepting the inevitable might mean to plan for the future of a considerably smaller city, to empty out run-down neighbourhoods, to regreen once populated areas, and to adopt an economic development plan that boils down to controlled shrinkage in a smaller but nevertheless livable place.

In the framework of the 24th AESOP Annual Conference in Helsinki the Shrinking Cities International Research Network (SCiRN) would like to initiate four sessions on regeneration strategies in shrinking cities. The sessions take up the track theme by focussing on the tension between global winners and local losers in a globalized world where growth and shrinkage, wealth and decline increasingly occur in close proximity to each other.
Separate Special Sessions

Development and Implementation of GIS and other Computer Applications in Planning

Session co-chairs: Elisabete A. Silva, Cambridge University (UK), Chris Webster, Cardiff University (UK)
THU to FRI, Room 12
Please consult Abstract book for more information

The use of computers and software for both quantitative and qualitative analysis in planning is a requirement for most planning practitioners and researchers. Focus groups and workshops require new ways of participative methodologies that use computers; spatial planning, sector and integrated planning use GIS and other spatial explicit computer applications in order to analyse and simulate the world.

This session aims at addressing the previous needs through the use of computers in planning.

Topics to be address might include:
- Computer applications to produce spatial analysis
- Computer applications to develop future simulations
- The inclusion of computation and Planning in the education system
- Other topics that might be considered relevant by those interested in these areas

Planning in Uncertainty for the Planning Theory

Organiser: Jean Hillier, School of Architecture, Planning & Landscape, Newcastle University (UK)
THU, July 8th  1730 –1900 Room 21
The participants in presentation order: Alessandro Balducci (IT), Luuk Boelens (NL), Torill Nyseth (NO), Cathy Wilkinson (UK), Jean Hillier (UK)
Please consult Abstract book for more information

The papers in this Special Session attempt to take forward practical and theoretical ideas about strategic spatial planning in uncertainty. They serve as a bridge between traditional forms of spatial planning principles which dealt with uncertainty by reducing its dimensions to those which could be managed, or rendered certain, and what we believe is the generation of a new, more promising, poststructuralist orientation. The five authors who contribute papers to this Special Issue have all developed their practices and theories from different bases, but have all ended up working with poststructural notions of the world and planning practice. Instead of struggling ‘alone’ in different parts of the world to experiment with, to theorise and to practise untried, poststructuralist concepts of spatial planning, the five have been able to gain confidence from coming together in conversation. Their ideas and practices resonate with each other to offer a strong theoretical and practical introduction for planning scholars to how we might plan in circumstances of uncertainty. Our aims in this session are: to present four first-hand accounts of international empirical cases of poststructuralist planning in practice; and to offer a poststructuralist theory for strategic spatial planning.
AESOP Meetings

Convenors: AESOP President Willem Salet, AESOP Secretary General Anna Geppert, Ilena Apostol

ExCo
Tuesday 6th July, 0900-1800 / Room 13

CoRep
Wednesday 7th July, 0900-1230 / Room 26

AESOP General Assembly
Thursday 8th July, 1345-1515 / Auditorium
The General Assembly provides the unique opportunity to share ideas and thoughts about developments in AESOP. The Executive Committee will report to the AESOP community about decisions, policies and actions taken and inform about new members. The General Assembly is also the moment for coming and going of elected officials in the AESOP organisation. Also the winners of the various AESOP prices will be presented to AESOP members. Therefore, the AESOP General Assembly is certainly a meeting you should not miss as a member. Also non members are welcome, as this is the meeting to learn more about AESOP and its activities.

Best Congress Paper Prize Committee
Convenor: Nikos Karadimitriou and Karel Maier
Various times /Room 11

Thematic Groups
Thematic Groups will meet on Thursday afternoon, from 1730-1900.
Rooms are listed below please consult Dipoli Floor Plans.
Planning and Complexity
Chair: Gert de Roo
Room 13
Transport Planning and Policy: European Experiences
Chair: Angela Hull
Room 23
Urban Cultures and Public Spaces
Chair: Ceren Sezer
Room 22
Resilience and Risk Mitigation
Chair: Murat Balamir
Luolamies
French and British Planning Studies
Chair: Philip Booth
Poli
New Technologies and Planning
Chair: Elisabete A. Silva
Room 12
Business Meetings

GPEAN
The Global Planning Education Association Network scheduled several meetings during the conference.

Tuesday, 6.7. 15:30–18:00 YTK
Wednesday, 7.7 9–12:30 Room 24
Saturday, 10.7 12:30–15:15 Dipoli Room to be confirmed

General Assembly of the Shrinking Cities International Research Network [SCIRN]
Convenor; Thorsten Wiechmann
Wednesday, July 7th
09:00-14:00/ Room 24

Editorial Board Meetings
Planning Theory and Practice
Thursday, July 8th,
12:30 – 14:00 /Room: 12

Planning Theory
Wednesday, July 7th
12:00 -14:00 /Room 12

For further business meetings see separate announcements!
Mobile Workshops

Overview: Parallel Mobile Workshops

Time: Friday, 9 July 2010 at 14:00-18:00

General Instructions: Gathering at 14:00 at meeting points specified below. Please consult Dipoli floor plans for the location of the rooms and halls. Return to the hotels at 18:00, just in time to prepare for Conference Dinner at 20:00.

Architecture and living spaces

1. Architecture by Alvar Aalto, Hall 1
2. New housing at the waterfronts of Helsinki, Auditorium
3. Tapiola: The Garden City, Luolamies
4. Wooden Helsinki, Hall 4A
5. Happy Kallio, Room 22
6. Suomenlinna sea fortress: World heritage site and housing area, Klondyke

Infrastructure spaces

7. Aviapolis: An edge city growing around the Helsinki-Vantaa Airport, Hall 4B
8. Going underground: Helsinki district heating and cooling, Takka
9. New gateway: Vuosaari harbour, Palaver

Nature in the city

10. Rantaraitti – Espoo’s waterfront walkway, Room 24
11. Forest in the city: Nuuksio national park, Room 26

Detailed Description

Architecture and living spaces

1. Architecture by Alvar Aalto
Buildings designed by Alvar Aalto are an important part of Helsinki’s urban image and a valuable architectural heritage. Helsinki has about 20 buildings or other sites designed by Aalto, the majority of which are internationally recognised however many sites and buildings have also remained quite unknown until now. The buildings designed by Aalto in Helsinki include a variety of structures that differ in terms of function, including private homes, office and commercial buildings as well as public buildings. In addition to Aalto’s extensive international production, these Helsinki sites offer an interesting cross-section of the development that occurred during his architectural career.

A coach tour – max number 50 participants

Meeting Point: Hall 1
Tour Guide: Leena Makkonen, Helsinki City Planning Department (Leena.Makkonen@hel.fi; +3589310 37262)
2. New housing on the waterfronts of Helsinki

Construction of the Vuosaari Harbour will completely transform the inner city of Helsinki. As a cargo port operations will be transferred from the old harbours to Vuosaari. Helsinki is faced with changes on a magnitude that has not been seen there for more than a century. Whole new waterfront areas will be made accessible to city residents. Firstly, there is Arabianranta, a housing area located next to the arts, crafts and design centre of Arabia and the two will share a close connection. The area further unified by its sharing of a wide shorefront, stretching from Kalasatama harbour to the mouth of the Vantaanjoki river. Secondly Kalasatama will become a densely built up and urban-flavoured city district. The area is centrally located on the city centre’s eastern shoreline joining Helsinki’s city centre. Thirdly is Jätkäsaari. Position in the inner city already supports the principles of sustainable development; the urban structure is dense and the area has an effective public transport network. In the future, energy-effective solutions will be favoured for all buildings. Finally, in Kruunuvuori a new seaside housing district will be built on the site of the present oil harbour and the adjoining land. There are diverse land- and seascapes with valuable natural, cultural and historical features. The area has a long and varied shoreline. The tour shows the current state of the developing waterfront. Presentation of the future plans is on display in the exhibition space Laituri.

A coach tour – max number 50 participants

Meeting point: Auditorium
Tour Guide: Ulla Kuitunen, Helsinki City Planning Department (ulla.kuitunen@hel.fi; +358931037443)
Contact: Reetta de Wan, Helsinki City Planning Departments (Reetta.DeWan@hel.fi; +358931037440),
YTK Contact: (Markku.Norvasuo@tkk.fi; +358505124593)

3. Tapiola: The Garden City

Tapiola Garden City is situated in Espoo about ten kilometres west of Helsinki close to the Gulf of Finland and the archipelago. It is a garden city tailored for Finnish conditions. Being a model example for urban planning in Finland after the post-war period. All leading Finnish architects from that period contributed to the design of Tapiola and left their distinctive marks on it. As a result, Tapiola has gained international reputation for its high-class architecture and landscape architecture as well as an ideologically interesting experiment.

On the professional guided walking tour you will get a closer presentation of Tapiola, the WeeGee Exhibition Centre, originally designed as a printing house and the neighbouring Otaniemi – Keilaniemi area, the dynamic hub for a top-level technological research and business.

A walking and coach tour – max number 50 participants
4. Wooden Helsinki

Nordic cities have traditionally been built of wood. Also in Helsinki wood was the main material in construction until the 19th century when the stone city started to take over. Unfortunately, most of the wooden areas were demolished by the 1960s, at a time when criticism against modernity and appreciation of traditional Nordic urban environments increased. Wooden Vallila and Käpylä, which were also planned to be pulled down, survived as a result of strong citizens’ resistance movement. They are both housing areas built by working class co-ops in the early 20th century and protected by preservation order today. In the recent years using wood as a construction material has gained popularity again and there are a few modern examples to date. This tour shows the old and new wooden housing in the Helsinki area.

A coach tour – max number 50 participants

Meeting Point: Hall 4A
Tour Guide: Maire Mattinen, National Board of Antiquities (Maire.Mattinen@nba.fi; +358940509423)
YTK Contact: Kaisa Schmidt-Thome (Kaisa.Schmidt-Thome@tkk.fi, +358505124629)

5. Happy Kallio

Kallio is an inner city district northeast of the centre of Helsinki. As a former working class neighbourhood, it was once one of the most densely populated urban areas in Europe. During its history it has transformed from a district of wooden huts bordering the factory and harbour area of Sörnäinen and populated by large families into a neighbourhood which until recent decades has had a somewhat bad reputation. It remains a densely built urban area, now predominantly populated by young adults and seniors due to its small flats. With its many bars, small shops, cultural activities and perhaps a peculiar mixture of, on the one hand, a vivid urban culture and warm, social atmosphere and, on the other, loneliness, alcohol and narcotics abuse as well as other darker sides of human life. However, Kallio and adjacent districts have so far remained unique urban districts in Helsinki, and the whole Finland. Environmental NGO Dodo has a project called 'Happy Kallio' that focuses on experimenting and finding concrete ways for people to influence their neighbourhood gathering together people working with local issues relating to culture, social responsibility, town planning etc. Dodo invites AESOP conference participants to experience and define the key elements of the happy and functioning urban life! Welcome to Happy Kallio!

A coach tour and by foot – max number 30 participants
6. Suomenlinna sea fortress: World heritage site and housing area
This tour takes you to the Suomenlinna fortress. Located on islands off Helsinki, Suomenlinna is a unique historical monument and one of the largest maritime fortresses in the world. In 1991, Suomenlinna was included on the UNESCO World Heritage List as a unique monument of military architecture. The buildings of Suomenlinna date mainly from the end of 18th century, the Swedish era, and 19th century Russian era. Suomenlinna is also a suburb of Helsinki, with 850 people living in the renovated ramparts and barracks. Furthermore, about 400 people work on the island throughout the year and about 700 000 people visit the island annually. Suomenlinna is renovated, maintained and promoted by The Governing Body of Suomenlinna, whose objective is to safeguard the fortress – the atmosphere, buildings and open spaces – for the coming generations. At the same time the area must remain a living part of the city, and tourism needs to be promoted.

A tour by coach, ferry and by foot – max number 40 participants

Meeting Point: Klondyke
Tour Guides: Heikki Lahdenmäki, The Governing Body of Suomenlinna (Heikki.Lahdenmaki@suomenlinna.fi; +358405288777) and Seija Linnanmäki, National Board of Antiquities (Seija.Linnanmaki@viapori.fi; +358500170757)
YTK Contact: Kristoffer Snabb (kristoffer.snabb@tkk.fi; +358505124613)

Infrastructure spaces

7. Aviapolis: An edge city growing around the Helsinki-Vantaa Airport
The City of Vantaa aims at building lively living and working quarters around the Helsinki-Vantaa Airport. The area named Aviapolis has already become the most attractive business location in Helsinki region. During the tour we will see medieval landscapes and church, a small housing area designed by Alvar Aalto, the Kaivoksela protected suburb of the 1960s, new colourful housing areas in Aviapolis, growing shopping and business centres around the airport, an old factory being transformed to exclusive housing and the famous Science Centre Heureka and, it includes a coffee break and short walking tours in the various areas. The tour is organized and guided by city planners of Vantaa.

A coach tour – max number 50 participants

Meeting Point: Hall 4B
Tour Guides and Contacts: Jukka Kullberg, Vantaa City Planning Department (Jukka.Kullberg@vantaa.fi; +358405418986) and Paula Mäki, Vantaa City Planning Department (Paula.Maki@vantaa.fi; +3584151994000)
YTK Contact: Petteri Niemi (Petteri.Niemi@tkk.fi; +358505124592)
8. Going underground: Helsinki district heating and cooling
The district heating and cooling system in Helsinki is one of the most advanced and largest in the world. In this mobile work shop we go underground and get familiar with this eco-efficient way of cooling and heating homes, hotels, offices and shopping centres. There are two stops in the route: Katri Vala’s district heating and cooling plant located under the Katri Vala Park and the world’s most eco-efficient computer hall located under Uspenski Cathedral.

A coach tour – max number 40 participants

Meeting Point: Takka
Tour Guides and Contacts: Niko Wirgentius, Helsingin Energia (Niko.Wirgentius@helen.fi; +35896172906) and Juha Sipilä, Helsingin Energia (juha.sipila@helen.fi; +35840334663)
YTK Contact: Timo Heikkinen (Timo.Heikkinen@tkk.fi; +358505124570)

9. New gateway: Vuosaari harbour
The Port of Helsinki opened a new cargo harbour in the Vuosaari district in November 2008. The construction project lasted close to 6 years and also attracted keen interest outside of Finland. The new Vuosaari Harbour is specialised in unitised cargo, i.e. containers, trucks and trailers. The competitive advantages of the Vuosaari harbour include large, stable and balanced cargo volumes as well as frequent scheduled traffic. In terms of urban planning, the new location of the cargo harbour has created large possibilities for waterfront development – mainly housing and office buildings – in the central city area in Helsinki. The needs and values of local inhabitants were given special consideration in relation to the traffic routes, industrial and service areas during the construction of the harbour. In addition, the church of the Finnish Seamen’s Mission, the Gatehouse, and some other constructions including prize winning noise wall are representing top Finnish architecture in the area.

A coach tour – max number 50 participants

Meeting Point: Palaver
Tour Guide: Teemu Palo: APRT (tpa@aprt.fi; +358503676175)
Contact: Kari Noroviita, Vuosaari Harbour (Kari.Noroviita@hel.fi; +358500403990)
YTK Contact: Sirkku Wallin (Sirkku.Wallin@tkk.fi; +358505124625)

Nature in the city

10. Rantaraitti – Espoo’s waterfront walkway
In a modern city the waterfront walkway, connecting interesting places, is an important means of recreation. The town planning of Espoo’s maritime waterfront started in the 1970’s. The aim is to create a continuous, 40-50 km long walk and cycle path along the sea shore. At the moment about 30 kilometres of the walkway has been completed. The nature of the walkway varies from spacious urban to small scale verdant. There are many swimming beaches, marinas and parks along the way. The guided bicycle tour of approximately 10 km will take you to interesting places along the beautiful seashore.
Make sure you wear comfortable shoes and suitable cloths according to the weather.

A bicycle tour – max number 30 participants

Meeting Point: Room 24
Tour Guides: Jaana Salo, Espoo City Planning Department (Jaana.Salo@espoo.fi; +358468771854) and Sami Suviranta, Espoo City Planning Department (Sami.Suviranta@espoo.fi; +358503707365).
Contact: Lea Keskitalo, Espoo City Planning Department (Lea.Keskitalo@espoo.fi; +358468772478)
YTK Contact: Anna Broberg (Anna.Broberg@tkk.fi; +358505124554)

11. Forest in the city: Nuksio national park
The Nuksio National Park was established in 1994 and is located just half-an-hours drive from Helsinki. The park, partly in the northern parts of Espoo covers an area of 4 500 hectares and there are plans for expansion. It is the most significant national park in the Southern Finland and offers excellent opportunities for relaxation in the wilderness. Nuksio is a rocky upland area with a total of fifty lakes and ponds and unspoilt forests. It is the home of many rare plants and animals, including dozens of endangered species. The guided tour will begin with a presentation of the new Nuksio Centre which will be set up in the near future. The centre is to be a window into the entire network of national parks and nature in Finland.

The guided walk on the marked trails is 4 km with a campfire lunch.

Make sure you have comfortable shoes and suitable clothing according to the weather.

A coach tour and by foot – max number 50 participants

Meeting Point: Room 26
Tour Guides: Tanja Hämäläinen, Espoo City Planning Department (Tanja.H.Hamalainen@espoo.fi; +358503667740) and Jorma Ahola, Espoo City Planning Department (Jorma.Ahola@espoo.fi; +358981624331)
Contact: Lea Keskitalo, Espoo City Planning Department (Lea.Keskitalo@espoo.fi; +358468772478)
YTK Contact: Aino Simola (Aino.Simola@tkk.fi; +358505124424)
Social Events

Opening Reception
Day and Time: Wednesday 7th July, 19:00-21:00
Location: Espoo Museum of Modern Art EMMA, Ahertajantie 5, Tapiola, Espoo.
Instructions: Shuttle buses from Dipoli parking area in between 18:00-19:00, and to
the hotels after the event. Radisson Blu Seaside customers can use the bus provided by
the hotel. When returning, it is also possible to use public transport. Please consult the
AESOP 2010 Googlemap or other maps for bus stops in Tapiola.

Young Academics Network Drinks
Day and Time: Thursday 8th July, 19:00-03:00
Place: Teekkarien Rantasauna, on the beach of Jämeräntaival 7, Espoo. Consult AESOP
2010 Googlemap or other maps.

Instructions: Optional Finnish sauna experience – bring your own towel and swimming
suit! Traditional Finnish sauna barbeque (very simple) and live music played by The
Affordable House Band. Warm clothes recommended, nights can be chilly on the
beach.

AESOP President W.G.M. Salet invitation to Track Co-Chairs
invitation only
Day and Time: Thursday 8th July, 20:00-22:00
Place: Lasipalatsi.

Conference Dinner
Day and Time: Friday 9th of July, 20:00-03:00.
From 23:00 the doors are open to all conference participants. Conference badge must
be shown at the entrance!
Place: Korjaamo Culture Factory, Töölönkatu 51a, Helsinki
Instructions: The doors will be open at 19:30. Take tram 4, 7A or 10 from Helsinki city
centre to Töölön halli stop. Then walk about 2 minutes. Consult AESOP 2010 Googlemap
or other maps. Dress code smart casual.

With your booking of a dinner place, you will receive one Welcoming Drink and two
accompanying drinks with the meal. Afterwards, you can buy drinks from the bar.

Participants (and their accompanying guests) with special diets who signed up for the
Dinner will find a coloured card in their registration envelope. This card can be brought
to the Dinner and put up next to your plate. This way the personnel of the restaurant will
be alerted about special requirements.

FIFA World Cup 2010 South Africa
Day and Time:
Semi-finals
Tue 6th July at 21:30
Wed 7th July at 21:30
3/4 Place
Sat 10th July at 21:30
Final
Sun 11th July at 21:30
Place: Sokos Tapiola Garden Hotel, Tapionaukio 3, Espoo.
Instructions: After Opening reception on Wednesday short walk from EMMA to Tapiola Garden Hotel. Public transportation to Helsinki city centre. Consult AESOP 2010 Googlemap or other maps for the location of bus stop.

**Post Conference Tours**

Congrex, the conference office, organises several Post Conference Tours. These are commercial packages, with the following destinations:

- St. Petersburg tour to Russia, 11–13 July, Sunday-Tuesday, 2 nights and 3 days
- Tallinn tour to Estonia, 11 July, Sunday, day trip (morning-evening)
General Information

Conference location

Finland
Finland is a member of the European Union and one of the five Nordic countries. Helsinki region consist of cities of Helsinki, Espoo, Vantaa and Kauniainen. The region inhabits more than 1 million people, 1/5 of the whole population of the country. Due to its location on the globe, there are highly competitive direct flight connections from Helsinki to Asia, for example. Helsinki-Vantaa Airport is located 20 kilometres from Helsinki city centre.

Espoo and Otaniemi campus
The conference will be held in Otaniemi campus in Espoo, about 10 km to west from Helsinki city centre. Espoo is the second largest city in Finland and Otaniemi is the leading technology hub in the Nordic countries, featuring a unique mix of top-level research organizations, academic institutions and company headquarters like those of Nokia and KONE. Otaniemi is a community of over 31,000 people that includes 15,000 students from the Aalto University School of Science and Technology and 16,000 technology professionals.

Otaniemi is also one of the most interesting sites of Finnish architecture. The general plan of the campus was made by the architect Alvar Aalto. His office was in charge of the main building and the Otahalli sports hall, built for the Olympics, and of several other buildings. The oldest dormitories, the Servin Mökki restaurant and the Otaniemi chapel were designed by the office of Heikki and Kaija Siren.

Dipoli Congress Centre
Dipoli Congress Centre in Otaniemi (address Otakaari 24, Espoo) is one of the premier prestigious venues in Finland for meetings, seminars, international conferences and festive events. Dipoli has received Green Office certificate and it is of great architectural significance. Its design has been admired throughout the world and many know its fascinating exteriors and the pinecone-shaped sculpture outside. Dipoli was designed by architects Reima Pietilä and Raili Paatelainen Pietilä, postmodernists before the time.

Transportation to and from conference venue Dipoli

Free AESOP 2010 regional transportation ticket
Each participant has received free of charge AESOP 2010 public transportation during the registration or already at the AESOP 2010 welcoming desk in airport (Tue 6th July 14-19 & Wed 7th July 09-13). The regional transportation ticket is valid on buses, trams, metro, Suomenlinna ferry and local trains.

From Helsinki
Take busses 102 (platform 41) or 103 (platform 42) from Kamppi Bus Terminal by Narinkkatori to Otaniemi. Bus stop is nearby to Dipoli. Consult the maps and timetables from Arrival Information at the AESOP 2010 webpage.
From Tapiola
If you don’t like to walk, take bus 2, 4, 10, 15 from Tapiola Bus Terminal to Otaniemi. Bus stop is nearby to Dipoli. Consult the maps and timetables from Arrival Information at the AESOP 2010 webpage.

From Dipoli to Helsinki or Tapiola
Bus stops are located in Otaniementie (to Helsinki and Kalastajatorppa) and Vuorimiehentie (to Tapiola). Consult the maps from Arrival Information at the AESOP 2010 webpage.

Taxi
The address of Dipoli is Otakaari 24, Espoo. Nearest taxi rank is next to Dipoli.

**Radisson SAS Blu Hotel shuttle bus time table**

**Wednesday 7th July:**
- 08:30 from hotel to Dipoli
- 12:00 from hotel to Dipoli
- 13:00 from hotel to Dipoli
- 21:00 from EMMA (welcome reception) to hotel

**Thursday 8th July:**
- 08:30 from hotel to Dipoli
- 17:30 from Dipoli to hotel
- 19:00 from Dipoli to hotel
- 19:30 from Dipoli to hotel

**Friday 9th July**
- 08:30 from hotel to Dipoli
- 14:15 from Dipoli to hotel (those not going on mobile workshops)

**Saturday 10th July**
- 08:30 from hotel to Dipoli
- 17:00 from Dipoli to hotel
Practical information during the conference

Registration desk
Participants can pick up their personal conference material at the registration desk, which is open at Dipoli Congress Centre (Otakaari 24, Espoo), near gala entrance lower level as follows:

Wed 7th July 10:00-18:30
Thu 8th July 08:00-17:00
Fri 9th July 08:00-14.00
Sat 10th July 08:00-17:00

The conference secretariat will be available to assist you at the registration desk during the conference.

Information desk
The information desk will be available at Dipoli Congress Center in the registration area during the conference hours.

Name badges and entry tickets
Participants and accompanying persons are requested to wear the official conference name badges in all conference events as the badge serves as a ticket to the conference venue and events. The delegates will have a name badge without colour and accompanying persons have a pink name badge. Organisers and volunteers have neon yellow colour. A fee will be charged for reproduction of lost name badges. Entry tickets for the social events should be shown upon entrance to each event.

Please wear your conference badge at all times in the Dipoli premises!

Lunch and refreshments
Lunch is included in the participants’ registration fee. Also Coffee and tea in the lobby area(s) during the breaks are included in the registration fees. Fresh, drinkable water will be available at all times.

Photographing, recording and mobile phones
Photographing or recording of oral presentations is not allowed. Mobile phones and communicators must be switched off in the lecture halls since they may interfere with the audio system of the halls.

Language
The conference language is English. There will be no simultaneous interpretation.

Electricity
Electricity supply in Finland is 220 volts (50 Hz), and wall outlets are the Northern European Standard (CEE7/4) with two round contacts. The standard two-pin Euro plug (CEE 7/16) can be connected to these outlets.
Non-smoking policy
Smoking is prohibited in the conference and exhibition areas. In Finland, smoking is not allowed indoors in public buildings and other places open to the public, except in designated smoking areas.

Internet connections
Wireless internet connection is available at Dipoli Congress Centre in the lobby areas, and free Wi-Fi called Aalto Open (by Aalto University) is available in the whole Otaniemi campus area.

Presentations
Presentations should be up-loaded at latest during the breaks before your session or during the day before your presentation. Volunteers in session rooms will assist you. Each file should be named by the track number, abstract registration number (paper ID), and the family name of the presenter (e.g. T05-XXX-Smith.ppt).

Liability
By registering into the conference and/or by participating in the exhibition joined to the conference, participants and exhibitors agree that neither the organising committee nor the conference secretariat assume any responsibility for damage or injuries to persons or property during the conference. Participants and exhibitors are advised to organise their own insurance.

Currency and credit cards
The official currency in Finland is euro (€ or EUR). Most major credit cards are accepted in hotels and shops. VISA, Eurocard and MasterCard are accepted at the conference registration desk. Personal or company cheques are not accepted at the registration desk or shops. Travellers’ cheques can be cashed in banks and exchange bureaus.

Cloakroom
Cloakroom is available free of charge next to the gala entrance on the ground floor of Dipoli Congress Centre.

Dress code
Dress code is casual throughout the conference and social events and smart casual for the conference dinner.

Conference assistants and volunteers
Conference assistants and in-house technical staff of Dipoli Congress Centre are assisting in practical issues in the lecture halls before and during the sessions (e.g. setting up the presentations on the computers and handing microphones for questions).

Photographer
A photographer will document the main conference events.

Book Exhibition
The exhibition will take place in the area of the upper lobby. Access to the exhibition is free for registered participants. The exhibition will be open throughout the conference hours. See Dipoli floor plan.
